

### Monoflo® Stainless Water Valves

- Chew-proof stainless construction
- Ideal for rabbits and poultry

The weight of the upper stainless valve seat is engineered to rest firmly on the top of the valve body, thus cutting off the water flow. This design eliminates the need for a spring or diaphragm to regulate water flow.

A600

Valve installation must be vertical! (Perpendicular to the cage floor). For mammals that chew, install 1 of 2 ways:

- 1) Place 1/2" PVC between back-to-back cages. Cut a 3"W X 6"H hole for valve access. Use a separate valve for the back side cage.
- 2) Place 1/2" PVC pipe on the top, 1" in from the front or back. Cage height must be 16" for commercial breeds of rabbits. This design is not recommended for small to mid-sized breeds. Install the 4-3/4" vertical extension drop (#A612).

Do not install PVC pipe inside the cage. You will have chewing damage to the pipe.

Individual Monoflo valves:

Stock No. A600 .....\$1.32 ea.....100+ @ \$1.09 ea.

Sealed case of 200 Monoflo valves (Ship. Wt. 9 lbs).

Stock No. A651 .....\$208.00 ea.

4 3/4" Vertical Extension Drops, with 1/8" MPT on the top, and 1/8" FPT on the bottom. Ship wt. 4 lbs / 100.

Stock No. A612 ..... \$0.59 ea .....100+ @ \$0.54 ea.

### Galvanized Pipe Clamps

Holds PVC pipe away from cage wire.

Clamp for 1/2" O.D. pipe (1/2" CPVC)

Stock No. A819.....\$0.27 ea.  
.....100+ @ \$0.25 ea.

A820

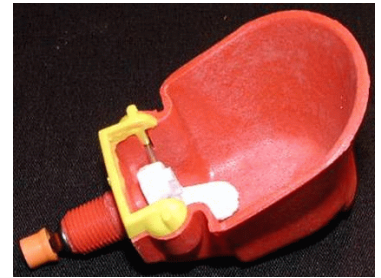

Clamp for 3/4" O.D. pipe (1/2" PVC)

Stock No. A820.....\$0.27 ea.  
.....100+ @ \$0.25 ea.

### Trigger Cup Waterer

Equivalent to the old Hart® Cup

Used in commercial chicken houses throughout the world. The Trigger Cup has 1/8" MPT connection, and is made of rugged plastic. 3 PSI recommended pressure. **Do not use** with the pipe saddles. Ship. wt. 5 lbs / 100.

Stock No. A113.....\$2.70 ea.....100+ @ \$2.51 ea.

Replacement Seals for above:

Stock No. A115 .....\$0.30 ea .....1000+ @ \$0.25 ea.

Replacement Black Stems for above:

Stock No. A116 .....\$0.23 ea .....1000+ @ \$0.19 ea.

### Maxiflo® Pressure Regulator

A high-quality regulator used in large commercial operations. The inlet has 1/2" MPT and the outlet has 3/4" MPT. Ship. Wt. 2 lbs.

Stock No. A709 .....\$73.90 ea.  
.....6 or more @ \$68.10 ea.

### Water Pressure Gauge

1/8" MPT

Stock No. A712.....\$11.30ea.  
.....6+ @ \$10.30 ea.

### Tank Connector

Fits 1/2" PVC pipe

Stock No. A003 ..... \$11.80 ea.  
.....6+ @ \$10.90 ea.

### Wire Kwik Clip

For 3/4" O.D. pipe.

Stock No. A813.....\$6.90 / box of 100  
.....6+ boxes @ \$6.50 / box of 100
