

TATTOO OUTFITS AND SUPPLIES

Stone® Tattoo Equipment

A Truly Superior Product

All Stone® Tattoo Sets include tongs, one set of 0-9 digits, and 1 jar of ink paste. Ear release is produced by a spring-loaded plate that lifts the ear or pelt off of the prongs when the handle is released.

The Stone® 3/8" Set With Ear Release holds 4 digits & can be used to identify large animals, like dogs, and pelts.

The Stone® 5/16" Set With Ear Release holds 5 digits & can be used for all larger breeds of rabbits.

The Stone® #300 Sets fit all breeds of rabbits, including small breeds, but does not have the ear-release feature.

T306

5/16" tongs w/ ear release
